Digital Repertoire of European Poetry - Project workspace

Dear friends and members of the project, we have created this space in order to share and gather all the documentation of the project. You can add documents uploading them into different folders, and you can also add pages which everybody can modify and use it as a wiki.

-MAILING LIST

I remember you that we have a mailing list for this group, which is actually the quickest way of communication among us. It is a private mailing list, and to send a mesage you have to be a member of it (send me an email if you are not yet included elenagbg@gmail.com) and if you are already a member, it is enough sending an email to repertoires@googlegroups.com. In case you want to unsuscribe, you have to send a message to repertoires+unsubscribe@googlegroups.com.
And to see the previous conversations hold by the group you can go to: https://groups.google.com/d/forum/repertoires

SURVEY PLEASE DISSEMINATE! WE NEED TO KNOW FINAL USERS OF SUCH REPERTOIRES NEED AS INFORMATION
